

UTILIZATION MONTHLY REPORTS

The data is sorted by engine type listed below:

TURBOFAN/TURBOJET
TURBOPROP
RECIPROCATING - TRANSPORT
RECIPROCATING - NORMAL/UTILITY
HELICOPTER TURBOSHAFT

Within each section, the records are sorted by aircraft manufacturer, aircraft model, and engine.

UTILIZATION QUARTERLY REPORTS

The quarterly report is provided in three separate formats.

by Aircraft: Sorted by engine category as in the monthly report. Lists each aircraft model and operator reporting that aircraft. Gives flight hours per month.

by Designator: Alphabetical by operator designator. Lists aircraft models and flight hours per month.

by Operation Type: Displayed by type of operation, then sorted by engine type. Lists aircraft models and flight hours, with totals in each category type.

Types of operation:

Domestic and/or Flag Carriers
Supp/Sched Cargo Air Carrier
Part 135 On-demand Air Taxi
Commuter Air Carrier

UTILIZATION SEMI-ANNUAL and ANNUAL REPORTS

This report is displayed by region separated by type of operation. Lists operator designators and engine type with total flight hours.
